For winery members with estate vineyards, we need assistance in identifying varietals grown and planted acres. We would also like to identify Alexander Valley Appellation wines produced. This information will not be used to individually identify any grower or winery member, and will be held confidentially. Aggregate information will be compiled to present to media and trade groups. Please list varietals grown, acres planted, and AV wines produced in the spaces below. You may attach a separate sheet, if necessary:

Variety: _____ Acres planted: _____

Variety: _____ Acres planted: _____

Variety: _____ Acres planted: _____

AV Wines produced (by variety and approximate case production):
